Superintendent

I am very proud to again take part in our Pirate yearbook. The yearbook staff, under the supervision of Mrs. Rhoton, has done another outstanding job preserving the memories included in this publication. The hours spent recording the events of this past year will not go unnoticed. Each time we open our annual to recall the 1984-85 school year, we again think of the love and dedication that went into its making.

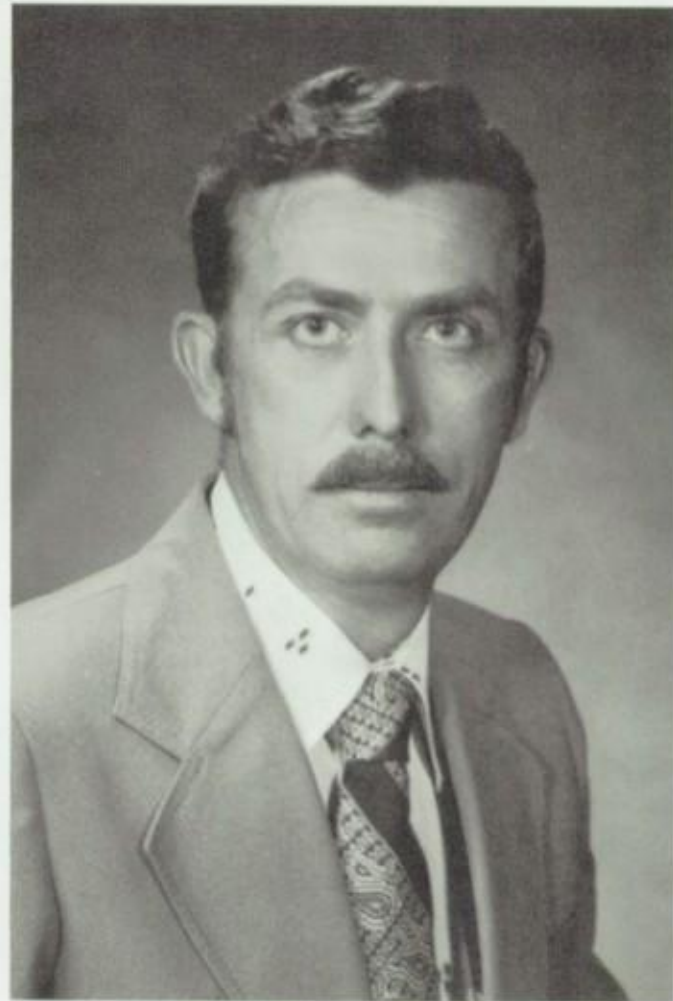

The theme of this year's yearbook is "Youth Keyes to America's Future." Since our young people truly will be the key to the future of our American society, it is my hope they will have been given a proper set of tools to work with. As no one tool will do all jobs, no one educational key will unlock all doors. The pages of this annual highlight some of the many educational keys needed in the future. I trust our graduates of 1985 will take the tools they have earned here at Keyes, add to them, and learn to skillfully use them for the betterment of mankind.

School Board

These people, our school board, work many long hours to keep our school running. One of the most significant things that has been done for us this year is fixing the roof on our school. We appreciate their hard work. Without them our school would not be what it is today. They are the people that keep it together.

Thank you, Board Members, for taking the time and effort to provide the best for us.
